Bring the world to Yulin

Galaxy Trade and Technology Company

Letters from the Chairman and Vice-Chairman

Galaxy Trade and Technology is a magnesium mining, manufacturing and international trade network based in Shaanxi Province, China and Honolulu. A joint venture between private business in China and the United States, Galaxy provides efficient, large scale production, advanced materials technology, and financial engineering for effective market access. The company uses intelligent logistics for delivery of magnesium products to ports worldwide; renewable energy powers a significant part of its industrial operation. Galaxy supports the development of magnesium as an alternative for lightweight, strong, durable and recyclable metals, and serves the automotive, aerospace, and pharmaceutical industries.

From atoms to planets,
from human civilization to the
whole universe--
we support sustainable
green economic development

Letter from the Chairman

Galaxy Trade and Technology is the first international magnesium trade joint venture between China and the United States -- recognizing magnesium as one of China's most important strategic assets.

We are solving a grid of interrelated challenges: a reliable mining and manufacturing supply chain; global transportation logistics; long-term price stability; a regulated global trading desk; innovative science and engineering for new applications of magnesium.

Galaxy is using renewable energy wherever possible, serving our communities responsibly, and providing a living example of a renewed commercial relationship between China and the world.

Michael North

Letter from the Vice-Chairman

"Aim high, but keep your feet on the ground." Beginning with Yulin, GTTC will radiate through the whole nation, and will always take a global view. Our goal is to share magnesium from Yulin with the world, and to bring the world to Yulin. I sincerely hope that our investors, business partners and friends from China and abroad will support the development of GTTC. I am convinced that, through their efforts and support, we will build a magnesium industry brand based on integrity and quality, and GTTC will become known worldwide.

Li Jianjun

Introduction: Board Members

Michael North, Chairman of the Board of Directors

Mr. North serves as Managing Partner of Asia-Pacific Group; he is the former President and co-founder of Greenstar Foundation, and founder of North Communications. He has been responsible for solar energy, wireless communications, media production and software development, and has been engaged in international trade for 30 years. He established a China Royalties Exchange initiative with Arthur Lipper, in order to issue high-quality revenue share investment products in China.

Asia-Pacific Group is specialized in providing comprehensive and professional trade, services and financial investment for Chinese enterprises engaged in international trade, commerce, technology and industrial investment in the United States and the world. The company also assists American enterprises interested in expanding their products, markets and technology in China.

Li Jianjun, Vice-Chairman of the Board of Directors

Mr. Li Jianjun received an MBA from Xi'an Jiaotong University. He was the manager of the Engineering Department of Yulin Branch of China Telecom (one of the three largest telecom companies in China), and then served as the assistant director of Yulin Ecological Industry Science and Technology Park, mainly responsible for scientific research and pharmaceutical standard formulation. In 2017, he was rated as one of the top 10 outstanding entrepreneurs in Yulin City; he has rich experience in technology innovation, clean energy and management.

Mr. Li currently serves as the chairman of Yulin Puhuida Ecological Development Company, a breakthrough energy power generation and distribution company. The company uses advanced solar, wind and biomass energy to create clean green power that provides reliable electricity for Yulin's fast-growing industries.

Dong Yuming, Board Member, CEO and General Manager

Mr. Dong Yuming graduated from the Department of Chemistry, Shaanxi Normal University, and obtained his Master's degree from Northwest University (Xi'an). He was the manager of the Import and Export Department of a leading trading company in Shaanxi, and the chief representative of Zhongmeng Ceramic Industry Company. He teaches at the National Thermal Engineering Center of Tsinghua University. He is committed to promoting the technological development and export trade of China's magnesium industry.

Mr. Dong is a business enterprise leader with rich experience in engineering, chemistry, medicine and material science. He is also a scholar and lecturer who cooperates with top academic institutions in China and has access to the top people and the most sophisticated technical equipment.

Xiaofang Zhou North, Board Member, Chief Communications Officer

Ms. Xiaofang Zhou is an executive at Asia-Pacific Group. She is responsible for the development of financial services, international investment and trade projects between China and the United States. She has close ties with the Chinese business community, academia, the Ministry of Commerce, the Ministry of Foreign Affairs and other government departments. She founded the Zhou Enlai Peace Institute and directed the documentary "In the Footsteps of Zhou Enlai."

As an experienced business manager, she has always been committed to building a bridge between China and the United States. This is consistent with the tradition of her great-uncle, former Premier Zhou Enlai. As a communicator trusted and respected in China and America, she consistently supports the peaceful development of all countries.

Roger Epstein, Board Member; Chief International Counsel

Mr. Epstein served as the director of the tax department at Cades-Schutte, the largest law firm in Hawaii. He is expert in international and U.S. domestic tax planning and litigation, the formation of companies and partnerships, and worked as a tax expert with the Internal Revenue Service in Washington, D.C.

As a member of the American Association of Tax Lawyers, Mr. Epstein is listed in Who's Who in American Law, and in Best Lawyers in America.

Ding Xiaoyun, Board Member; CFO

Mr. Ding Xiaoyun graduated from Xidian University as an IPA-certified senior accountant and engineer. He has served as the financial manager of State-Owned Enterprises, responsible for financial analysis. Mr. Ding understands domestic financial systems, tax policy and financial regulations.

Liu Yichen; Board Member

Ms. Liu Yichen graduated from Oklahoma State University, and has obtained certification in securities practice and fund management. She is Operations Director for the Europe-China Institute for Education and Culture.

The Executive Team of GTTC

Hu Ming; Chief Administrative Officer

Mr. Hu Ming graduated from Hong Kong University of Science and Technology with a Master's degree, qualified as a senior engineer with communications major. He worked in network operations and maintenance for China Telecom, Shaanxi Province, and account director of customer service. He later worked as director of market operations for China Telecom, Shaanxi, responsible for conference organization and logistics management.

Daniel Roubeni; Vice President (International Market Development)

Daniel Roubeni is a partner in The Roubeni Company of Hamburg, Germany. He has rich experience in international trade, particularly export from China to Europe and America. Mr. Roubeni has a Master's of Business Administration from Milan University, and a Bachelor's in marketing and international business from the Leonard Stem School of Business, New York University. He is fluent in English, German, Italian and Farsi.

David Catzel; Senior Executive {United States Market Development}

Mr. David Catzel is an experienced executive officer of business development and strategic investment. His executive positions include Microsoft (Senior Development Executive), Intel (Entertainment Investments), Lucasfilm (Technology Partnerships), Barnes & Noble (interim Chief Innovation Officer). He is founder of his own Los Angeles and New York-based consulting company focused on digital transformation, both in the private and public sectors. David actively develops new user models, new software and hardware technologies, media production, Smart Cities, big data and analysis, image and streaming media identification, artificial intelligence and network security applications, in a career that spans more than 30 years.
